THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. The construction of the power station at Dwory (50° 02' N 19° 17' E), near Oswiecim, is supervised by a commission selected by the Polish-Czech Council for Economic Co-operation.
2. The power station is to be equipped with three turbo-generators having a total capacity of 150,000 kw. Two turbo-generators have been installed, and the third is scheduled for completion in the second half of 1952.
3. Deliveries of machinery are arriving at Dwory from Czechoslovakia. In return for these, Czechoslovakia will be supplied with half the power generated at this station as soon as it starts operating. This arrangement is for a period of twenty years. The Dwory station will be connected to both the Polish and Czech national grids.
4. Construction of the power station is hoped to be completed no later than the beginning of 1953.
